

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC**

---

**ORDINANCE N. 29/2015/PRM/CZS/TPC - 1st Letter CZS**

The **FEDERAL PUBLIC MINISTRY**, by the Signatory Republic Attorney, in the use of its constitutional and legal attributions and, especially, with a focus on Articles 127 and 129, item III, of the Federal Constitution of 1988 and by Article 6, item VII, "b", c/c art. 7, item I, both of Complementary Law 75/93, and

**CONSIDERING** that Preparatory Procedure no. 1.10.001.000016/2015-03 aims to investigate the phenomena experienced by indigenous and non-indigenous peoples, in the Apiwtxa Village region, in the Kampa Indigenous Land of the Moa River;

**CONSIDERING** that, in due diligence with state agencies, it was not possible to obtain information about the phenomena and their possible causes;

**CONSIDERING** the need to carry out the anthropological examination already requested, in order to obtain an anthropological diagnosis about the events, in order to support the convincing state of this ministerial agency;

**CONSIDERING** that the time limit for this preparatory procedure is

**RESOLVES** to establish a Public Civil Inquiry to better ascertain the facts, so

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC**

---

**DETERMINES**, from here and now:

1. This procedure is established in the form of Civil Inquiry;
2. Communicate to the 6th CCR the present conversion;
3. the Advisory to contact the forensic sector, providing the necessary clarifications in order to carry out the examination already requested.

**COMPLY AND PUBLISH.**

CRAFT 007/GAB/2015/JURUÁ CR/FUNAI/AC

Cruzeiro do Sul, February 2, 2015

To Dr

***THIAGO PINHEIRO CORRÊA***

ATTORNEY GENERAL'S OFFICE IN ACRE  
FEDERAL PUBLIC PROSECUTOR'S OFFICE  
Br 307, Km 09, n. 4090 - Boca da Alemanha  
Cruzeiro do Sul - Acre

**Subject:** Supplementary report - FUNAI Process 08197.000008/2014-31 "Fireballs in Amonia".

Dr Thiago,

Greeting you, we saw, for the present, send to you a report made by a consultant who was together with FUNAI server visiting the Ashaninka Indigenous Land of Amonia holding activity in meeting with indigenous peoples of the border Brazil and Peru.

By this report, you can see that there was another sighting of the so-called "fireballs" that have been terrorizing the indigenous people of the region.

We believe that we already have many reports and comments about it and verified this Regional Coordination is unable to continue with a more specialized investigation in the subject, since it exceeds the technical skills related to phenomena of this kind, natural or not.

We believe that, due to the location of this Indigenous Land on the border of Brazil, the need for the institutions responsible for the surveillance and protection of this border should be properly alerted to these facts and can, within their skills and available resources, carry out appropriate investigations.

Without more for the moment, we put our total disposition for what else is necessary to attend this demand.

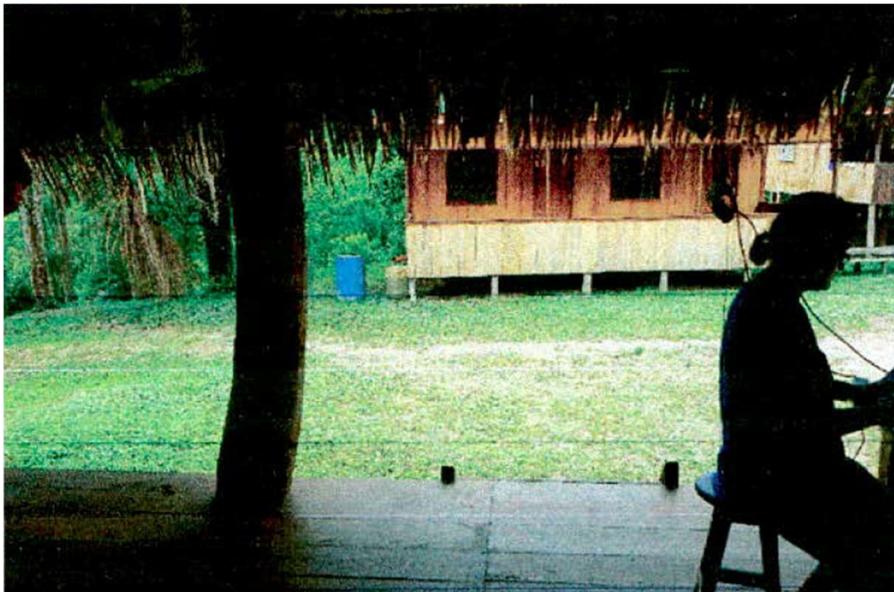

Regards,

**Luis Valdenir Silva de Souza**  
**Regional Coordinator**  
**FUNAI Port. 817/PRES-DOU**  
**No. 137 of 18/07/2013**

## **Testimony**

I was in Apiwtxa Village – Kampa Indigenous Land of the Amonia River, between January 20 and 27, 2014, together with members of the Pro-Indian Commission of Acre and representative of Funai, in order to participate in the IX Meeting of Indigenous Peoples of the Acre-Ucayali Border. During this period, I stayed, along with the aforementioned participants, in the house of one of the village leaders, Isaac Pyiãko. On the night of January 24, we were having dinner when we noticed great movement in the village. The indigenous were leaving their homes to the village yard and spoke loudly. Isaac explained that such objects were passing through the village. We left the house for the yard and, in fact, we all spotted two luminous objects that flew over the Amonia River at a height that I estimate between 1,000 and 1,500 ft.

On the night of January 26, after dinner, while observing the terrace I visualized flashes of light that were occurring with some frequency. I went to the outside area to see if it was lightning, but I did not see anything. Early, by 9:00 p.m., we went to sleep in our hammocks. At one point, I woke up in a strong light. At this point, I saw a point of light above the stairs of Isaac's house, floating about 2 ft from the floor. I tried to see if it was someone carrying a flashlight, which was not confirmed. The object flew and sometimes made small, fast shifts of a few inches up and to the sides. From this object, flashes of light were being fired in the direction of the hammocks we were on. I was somewhat paralyzed by the event, turned to the side and closed my eyes in an attempt to go back to sleep. Thus, I did not follow what happened to the object from this moment on. My impression was that the flashes were from photos that were being taken from the environment we were in.

The strong point of light was situated at a height of about 2 ft above the staircase of Isaac's house (above the two points visible in this image, adjacent to the floor)

That is what I have to report.

**Carolina Schneider Comandulli**

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC  
1st CIVIL AND CRIMINAL OFFICE**

---

**ORIGIN:** Letter No. 007/GAB/2015/CR DO JURUÁ/FUNAI/AC

**RELATED DOCUMENTS:** Protocol: PRM/CZS/AC-0000281/2015

**ABSTRACT:** Testimony of Mrs. Carolina Schneider Comandulli about strange phenomena that have been happening in Apiwtxa Village, Kampa Indigenous Land of the Moa River, where she reports having seen along with the indigenous peoples of that village, strange objects flying over the area where they were, those objects were emitting flashes of light in their direction even as they slept. The deponent's opinion is that such an object would be taking pictures of the village and its inhabitants in those days when this fact occurred.

**SINGLE-SYSTEM RELATED SEARCH**

**Searches performed:** 1. Fireballs; 2. Luminous objects; 3. Object of light; 4. Flying objects.

**Research Results:** I certify that, with the arguments researched, no procedures were found in this Attorney General's Office.

Fact News no. 1.10.001.000016/2015-03

**ORDER**

1. This fact news is actually based on the representation of FUNAI, through which a report by CAROLINA SCHNEIDER COMANDULLI (fls,3) is presented.
2. According to the report, luminous objects were observed in Apiwtxa Village, located in the Kampa Indigenous Land of the Amonia River on January 24.
3. In addition, on January 26, according to the report of CAROLINA SCHNEIDER COMANDULLI: "I saw a point of light above Isaac's house, floating about 2 ft from the floor. I tried to check if it was someone carrying a flashlight, which was not confirmed" (...) "My impression was that the flashes were from photos that were being taken from the environment we were in."
4. In view of the above report and, in order to gather more information, I determine:
  - a) the Advisory, which contacts the Federal Police in Cruzeiro do Sul by telephone. Requesting the sending of the IPL files established for the assessment of these same facts. If a report is being prepared by the police authority for further submission to the MPF, please wait for the closure of investigations. Such diligence shall be certified in the present case;
  - b) the dispatch of a letter to the Airspace Control Department (DECEA), requesting: (i) information on flight records, in the

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC**

---

region, between January 20 and 27, 2015 (to the Advisory to contact FUNAI by telephone, to obtain the precise location of the site, certifying this diligence in the present file); and (ii) manifestation on the representation, with indication of the information it may hold about the facts;

c) the dispatch of letters to the 61st BIS, in order to express itself on the representation, with an indication of the information it may have about the facts;

d) the dispatch of a letter to IBAMA, in order to express itself on the representation, with an indication of the information it may have about the facts;

e) the shipment to ICMBio, with indication of the information it may have about the facts;

5. After the answers have been received, the findings for deliberation.

6. Comply.

Fact News no. 1.10.001.000016/2015-03

**CERTIFICATE**

I certify that, by order of the Attorney of the Republic Dr. Thiago Pinheiro Corrêa, on this date, I went into contact with the Federal Police in Cruzeiro do Sul/AC, through the telephone number (68) 3311-1200, in order to obtain information about the IPL n. 184/2014, which deals with the same facts of this fact news.

At the time, I obtained information from Mr. Mendonça that the deadline for processing IPL no. 184/2014 will expire at the beginning of March 2015, and should be send to this Attorney General's Office, before due time, with a request for a deadline or report.

Thus, considering the information granted by that worker, and that there will be no work hours in this Public Prosecutor's Office until Wednesday (19/02/15), I did not request, for now, the sending of the inquiry.

Cruzeiro do Sul/AC, February 13, 2015.

Letter No. 227/2015/PRM-CZS-TPC-1st LETTER CZS

Cruzeiro do Sul/AC, March 9, 2015.

To Mister

DIOGO SELHORST

Superintendent of the Brazilian Institute of the Environment and Renewable Natural Resources (IBAMA)

Veterano Manuel de Barros Street, 320, Abraão Alab

Rio Branco/AC - 69907-150

Subject: Preparatory Procedure no. 1.10.001.000016/2015-03

Mr. Superintendent,

1. Greeting him, with a subject in Art. 8, II, of LC n. 75/93, and aiming to register the civil inquiry above, I reiterate the entire content of Letter No. 160/2015/PRM/CZS-TPC-1º LETTER, whose copy is attached, giving you period of 10 (ten) days to answer the amount requested.
2. I also warn that the unjustified delay in the fulfillment of the requests of the Public Prosecutor's Office is crime as typified in Articles 10, Law No. 7,347/85, and 330, of the Penal Code, as well as an act of administrative misconduct, pursuant to Art. 11, Law No. 8,429/92, in addition to personal liability of the public agent (Article 8, § 3, of LC n. 75/93).

Best regards

Preparatory Procedure no. 1.10.001.000016/2015-03

**ORDER**

1. This is a preparatory procedure established for investigation into the sighting of "fireballs" in the Ashaninka Indigenous Land, according to the representation of sheet 2/3.
2. As initial steps, letters were sent to IBAMA (sheet 11), DTCEA (sheet 12), 61st BIS (sheet 13), to the head of Resex Alto Juruá (sheet 14). In the respective answers, however, it was not possible to find more information about the phenomenon (cf. sheet 15, 16, 17 and 22).
3. In view of this and, considering the need for anthropological evaluation on this issue, it is determined to register, with the 6th CCR, a request for examination, to be carried out on site.
4. Comply.

Preparatory Procedure no. 1.10.001.000016/2015-03

**ORDER**

1. This is a preparatory procedure established for investigation into the sightings of "fireballs" in the Ashaninka Indigenous Land, in the city of Marechal Thaumaturgo, according to the representation of sheet 2/3.
2. For the instruction of the file, a registration was made with the 6th CCR of the work application for expertise n. 6<sup>th</sup> 000030/2015, requiring investigation on-site (sheet 26). However, depending on the information contained in the Expert System, the work is to begin 08/01/2016, and there is a need, with the 6th CCR, to obtain anticipation of the date indicated, due to urgency in the investigation of the facts.
3. Thus, considering the above information, and that this preparatory procedure is due to end today (08/06/15), I determine its extension for 90 days, pursuant to Article 4, §1, of Resolution/CSMPF No. 87/2010.
4. Comply.

**From:** Ângela Baptista (PGR)  
**To:** Débora Janine Pereira Diogenes (PR.AC)  
**Date:** June 9, 2015 17:32  
**Subject:** Requests

Dear Débora,

The opening of this investigation was motivated to investigate the reports of sightings of luminous objects in the airspace of the Kampa Indigenous Land of the Amonia River. The first idea that comes to us in relation to security is what comes out of the anthropology.

It is also important to know what the attorney expects in relation to anthropological expertise. Thus, it is of paramount importance that he makes some questions for anthropological expertise to respond.

In view of the work schedule of the demands, the most likely term of service would be January/2016.

Grateful

**Débora Janine Pereira Diógenes (PR.AC) - Anticipation of Expertise 6th. CAM-000030/2015**

**CC:** Thiago Pinheiro Corrêa - PR (PR. AC)

---

Dear Chief, of order of the Honorable Attorney of the Republic Thiago Pinheiro Corrêa, I make contact to expose and request the following:

It was requested by Dr. Thiago Corrêa, **on 03/26/15**, expert demand on Letter n. 1.10.001.000016/2015-03, which is being processed before the PRM in Cruzeiro do Sul/AC, consistent in guide notes 6<sup>th</sup>.CAM-000030/2015, aiming at carrying out an anthropological report from an on-site visit by an expert specialized in Apiwtxa Village, Kampa Indigenous Land of the Amonia River, in view of the various reports of the indigenous peoples, the MPF, DPF and Funai, of sightings of luminous objects in the land airspace, which motivated the establishment of the inquiry.

It occurs that, when consulting the Expert System, it was found that the initial date for the required work being done is **02/07/16 and conclusion on 09/30/16**, that is, for more than one year from now, a fact that impairs the process of this investigation, considering that on-site expertise is the only feasible diligence at the moment.

In addition, the facts that led to the investigation account for the "sighting" of luminous objects in the indigenous land, which may no longer exist when the work is carried out (the latest reports date is from January 2015), making any conclusions about the case unfeasible.

Although there was no urgency indicated in the registration of the demand, and knowing about the existence of other demands to be fulfilled by the 6th CCR, I request anticipation of the date indicated for the beginning of the work, if possible, still for the year 2015, under fears of losing the object of the investigation, in view of the reasons set out above.

I make myself available for any clarifications that are necessary, thanking you now,

**Subject:** Anticipation of Expertise 6A.CAM-000030/2015

---

Dear Rafael,

In attention to your message that deals with the expert demand, this PR/AC, registered under Guide no. 6A.CAM-000030/2015, I come to inform you of the following.

With the creation of the new Secretariat of Expert Support - Ordinance No. 720, of August 10, 2015 - the criteria for request urgent expert demands are being consolidated. In this period of transition to the new organizational structure of the expertise in the MPF, the following criteria are being adopted for the classification of demands as urgent: risk of death; irreparable or difficult to repair damage; risk to public health; legal term or involving the risk of prescription or decay; risk of imminent social conflict with threat to the physical integrity of those involved; violation of fundamental or collective law.

The on-screen request, according to the information contained, does not meet these criteria, so there is no way to serve it as urgent.

As for the feasibility of conducting an anthropological study, I inform you that it is possible to undertake it, but in view of the situation of expenditure containment and the high cost of performing an investigation in that region, it would only justify such effort and expenses if such study is relevant to the guarantee of some fundamental or collective right.

Best Regards

Marcus Paul Schettino  
Thematic Advice Indigenous Populations and Traditional Communities of SEAP

>>> Rafael Melo Rocha (PRAC) 03/09/2015 17:41 >>>

Good afternoon, Ângela.

In response to the email sent, on 06/09/2015, by you to the worker Débora Diogenes, PR/AC, in relation to the request for anticipation of expertise registered under n. 6A.CAM-000030/2015, I come, under orders from the honored Attorney of the Republic Thiago Pinheiro Corrêa, to expose what follows.

It was requested by Dr. Thiago Corrêa, on 26/03/2013, expert demand for Civil Inquiry no. 1.10.001.000016/2015-03, in proceedings by PRM in Cruzeiro do Sul/AC, consistent in guide 6A. CAM-000030/2015, aiming at carrying out an anthropological report from an on-site visit of an expert specialized in Apiwtxa Village, Kampa Indigenous Land of the Amonia River, in view of the various reports of indigenous peoples, the MPF, DPF and Funai, of sightings of luminous objects in the land airspace, which motivated the establishment of the aforementioned civil inquiry.

In consultation with the Expert System, it was found that the initial date for the required work is February 7, 2016 and conclusion on September 30, 2016, that is, more than one year from now, a fact that would impair the process of this Civil Inquiry, considering that on-site investigation is the only feasible diligence at the moment.

The facts that led to the investigation account for the "sighting" of luminous objects in the indigenous land, which may no longer exist when the work is carried out (last reports date from January 2015), which would make any conclusion on the case unfeasible.

For this reason, the expected date for the start of the investigative work was requested.

In response, you ask "what is the expectation in relation to anthropological investigation", stating that it would be of paramount importance to elaborate questions to be answered by anthropological expertise.

Well, regarding the Civil Inquiry 1.10.001.000016/2015-03, several steps have already been adopted with the objective of gathering information about this phenomenon.

Letters were sent to IBAMA, DICEA, the 61st BIS and the head of Resex Alto Juruá. However, none of the mentioned agencies have information about the facts narrated here.

In addition, IPL 184/2014 was introduced in order to investigate the facts narrated in the criminal context. However, that evaluation has already been filed and no evidence has been found to give us the essence of the matter. Even in the case-findings of that investigation, on-site visits were carried out to verify the phenomenon. However, the federal police were unsuccessful in visualizing the phenomenon.

Thus, it was only as a probative measure to ascertain this phenomenon from an anthropological perspective, that is, whether this phenomenon would be related to some tradition or culture of the indigenous people, for example, due to psychoactive or hallucinogenic substances, typical of indigenous customs.

Thus, there is no relationship of questions that can be sent to assist in the investigation.

Moreover, in view of what has been exposed, if it is not feasible to carry out the anthropological study in the area, as well as if, in view of the objectives aimed, the investigation seems useless, I ask that this situation be informed, with the **possible urgency**, by email.

Best Regards

**PRM/CZS No. 2691/2015**

**Civil Inquiry no. 1.10.001.000016/2015-03**

**ORDER**

1. This is a civil investigation based on FUNAI's representation, through which a report by CAROLINA SCHNEIDER COMANDULLI (sheet3) is presented.
2. According to the report, luminous objects were observed in Apiwtxa Village, located in the Kampa Indigenous Land of the Amonia River, on January 24.
3. In addition, on January 26, according to the report of CAROLINA SCHNEIDER COMANDULLI: "I saw a point of light above Isaac's house, floating about 2 ft from the floor. I tried to check if it was someone carrying a flashlight, which was not confirmed" (...) "My impression was that the flashes were from photos that were being taken from the environment we were in."
4. With initial efforts, the Department of Airspace Control (DECEA), the 61st BIS, IBAMA, and ICMBio were officiated, in order to provide information that may exist about the phenomenon.
5. In response, DECEA reported "that it has no records of flights over Apiwtxa Village, geographic coordinates 9°10'23.113"S/72°54'34.823"W, between 20 and 27 January 2015", as well as "it does not hold information about the facts reported" (sheet 17).

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC**

---

6. In its turn, 61st BIS said that "it does not have any information that will contribute to the elucidation of the fact" and that "it does not have technical competence for the surveillance of the airspace of the border, and this attribution is up to the Brazilian Air Force" (sheet 16).
7. IBAMA, on the other hand, replied that it did not have "any information or suspicions about the origin or nature of the events cited" (sheet 22).
8. Finally, ICMBio clarified that it was aware of comments on the subject "fireballs in the Ashaninka Indigenous Land" but stated that it had no information about the phenomenon in communities located inside RESEX Alto Juruá (sheet 15).
9. Then, in order to gather more information about the phenomenon, a full copy of Police Inquiry No. 184/2014 was extracted, which, on a previous date, also sought to ascertain news of the appearance of unidentified objects flying over areas located in the Kampa Indigenous Land of the Amonia River, located in the city of Marechal Thaumaturgo/AC (media sheet 27-v), which was filed due to the absence of just cause for further investigations.
10. Similarly, considering the need for anthropological investigations, a registration was made, with the 6th CCR, of a request for investigation to be carried out on site (sheet 26).
11. Finally, after being informed, FUNAI, on 10/05/2015, reported that it had not recorded, in the last three months, occurrences involving so-called "fireballs".
12. This is the brief report.
13. After the steps performed in the present case it was not possible to identify the reported luminous phenomenon, nor the causes that would trigger its occurrence.
14. In fact, none of the agencies has official information about the phenomenon.

**FEDERAL PUBLIC PROSECUTOR'S OFFICE  
ATTORNEY GENERAL'S OFFICE IN CRUZEIRO DO SUL/AC**

---

15. Similarly, in subject of IPL 184/2014, after proceedings carried out on site between 02 and 04 August 2014, federal police officers said they had not seen the possible appearances, despite having taken shifts in order to observe as long as possible (sheet 27-v).
16. By the way, in the absence of minimal evidence, whether authorship or materiality, able to continue the investigations, IPL no. 184/2014 was archived.
17. It should also be noted that, in the attempt to analyze the phenomenon from the anthropological perspective, it was registered, together with the 6th CCR, application for investigation on-site.
18. However, due to the absence of concrete evidence on the essence of the phenomenon, and in view of the high costs and possible uselessness of the work carried out in the field, in view of the delivery of the final report, respecting the work schedule of the demands of the Expert Sector, being scheduled for 09/30/2016, date when possible traces of the phenomenon could no longer exist, the request for investigation was canceled.
19. Therefore, considering that there are no minimal indications about the phenomenon determined or steps able to identify it, and also that, according to FUNAI information, no new appearances of unidentified objects were seen over Apiwtxa Village (sheet 42), the filing of this civil investigation is necessary.
20. Inform archiving to the representative, pursuant to Articles 10, § 1, of Resolution No. 23/2007 of the National Council of the Federal Public Prosecutor's Office, and, by analogy, 17, §§ 1 and 3, of Resolution No. 87/2006, of the Superior Council of the Federal Public Prosecutor's Office.
21. After, submit the present case to the 6th Coordination and Review Chamber of the Federal Public Prosecutor's Office.
22. Comply.

Cruzeiro do Sul/AC, November 25, 2015.

**CIVIL INQUIRY No. 1.10.001.000016/2015-03**

**ORIGIN : PRM IN CRUZEIRO DO SUL/AC**

**INTERESTED(A): CAROLINA SCHNEIDER COMANDULLI**

**RAPORTEUR : DEBORAH MACEDO DUPART DE BRITTO PEREIRA**

*1. Civil inquiry established with the objective of investigating the occurrence of phenomena (luminous objects called "fireballs"), which frighten the indigenous peoples in the Apiwtxa Village, Kampa Indigenous Land of the Amonia River. 2. No finding of minimal indications about the existence of the phenomenon. 3. No need to proceed the act. 4. Vote for the APPROVAL of the filing.*

1. The attorney Dr. **Thiago Pinheiro Corrêa** reported and promoted the filing of the case in the following terms:

"This is a civil investigation based on the representation of FUNAI, through which is presented a report by CAROLINA SCHNEIDER COMANDULLI (sheet 3).

According to the report, luminous objects were observed in Apiwtxa Village, located in the Kampa Indigenous Land of the Amonia River, on January 24.

Also, on January 26, according to the report by CAROLINA SCHNEIDER COMANDULLI: "I saw a point of light above Isaac's house, floating about 2 ft from the floor. I tried to check if it was someone carrying a flashlight, which was not confirmed" (...) "My impression was that the flashes were from photos that were being taken from the environment we were in."

As initial steps, the Department of Airspace Control (DECEA), the 61st BIS, IBAMA and ICMBio were officiated, in order to provide information that may exist about the phenomenon narrated.

In response, DECEA reported "that it has no flight records over Apiwtxa Village, geographic coordinates 9°10'23. 113"S/72°54'34.823"W, between 20 and 27 January 2015", as well as "does not hold information about the facts reported" (sheet 17).

In its turn, the 61st BIS said that "it does not have any information that contributes to the elucidation of the fact" and that "it does not have technical competence for the surveillance of the border airspace, and this attribution is up to the Brazilian Air Force" (sheet 16).

IBAMA, on the other hand, replied that it did not detain "any information or suspicions about the origin or nature of the events cited" (sheet 22).

Finally, ICMBio clarified that it was aware of comments on the subject "fireballs in Ashaninka Indigenous Land" but stated that it had no information about the phenomenon in communities located inside RESEX Alto Juruá (sheet 15).

Then, in order to gather more information about the phenomenon, a full copy of Police Inquiry No. 184/2014 was extracted, which, on a previous date, also sought to ascertain news of the appearance of unidentified objects flying over areas located in the Kampa Indigenous Land of the Amonia River, located in the city of Marechal Thaumaturgo/AC (media sheet 27-v), which was filed due to the absence of just cause for further investigations.

Similarly, considering the need for anthropological investigations, a registration was made, with the 6th CCR, of a request for an investigation on-site (sheet 26).

Finally, after being informed, FUNAI, on 10/05/2015, reported that it had not recorded, in the last three months, occurrences involving so-called "fireballs".

#### **It is the brief report.**

After the steps performed in the present case it was not possible to identify the reported luminous phenomenon, nor the causes that would trigger its occurrence.

In fact, none of the agencies have official information about the phenomenon.

Similarly, in subject of IPL 184/2014, after due diligence carried out on site between 02 and 04 August 2014, federal police officers said they had not seen the possible appearances, despite having been taken shifts in order to observe as long as possible (sheet 27-v).

By the way, in the absence of minimal indications, whether authorship or materiality, able to continue the investigations, IPL no. 184/2014 was archived.

It should also be noted that, in the attempt to analyze the phenomenon from an anthropological perspective, it was registered, together with the 6th CCR, application for an investigation on-site.

However, due to the absence of concrete elements on the essence of the phenomenon, and in view of the high costs and possible uselessness of the work carried out in the field, in view of the delivery of final report, respecting the work schedule of the demands of the Expert Sector, being scheduled for **09/30/2016**, date on which possible traces of the phenomenon could no longer exist, the request for investigation was canceled.

Thus, considering that there are no minimal indications about the phenomenon determined or steps able to identify it, although, according to FUNAI information, there were no new appearances of unidentified objects over Apiwtxa Village (sheet 42), the filing of this civil investigation is a measure to be imposed".

2. It is the report.
3. Due to the reasons set out here, I vote for the APPROVAL of the filing.
4. To the assessment of the collegiate of the 6th CCR.
